Information

Our ancillary chests of drawers and bedside tables are available in a large range of designs and combinations. They are compatible with all standard beds, and particularly ideal for use with box-spring and upholstered beds. All dimensions are approximate measurements expressed in centimetres. These items are supplied as easy-to-assemble individual components.

Our chests of drawers and night tables, which are manufactured in Switzerland and have the GS approval mark.

The outstanding features of our ancillary furniture range include:

Doors are fitted with individually damped metal hinges. These ensure that doors close quietly and smoothly.

Each drawer is fitted with extending, damped runners for gentle and silent closing.

Robust, high-quality metal handles in two colour options:

- High-grade steel colored
- Black matt

The two shelf inserts can also be height-adjusted to let you optimise the storage space available.

The chests of drawers and bedside tables alike are reinforced at the back to provide extra strength.

The feet are adjustable to compensate for minor unevenness in floor surfaces.

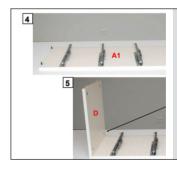

Interiors are finished in high-grade «Premium white».

Tops and fronts made of glass and wood* can be freely combined.

* wooden composite base with a melamine-resin finish

Very straightforward and easy to assemble, with amply-illustrated instructions.
